

SPPA 2120 Phonetics and Phonology

Terminology to review for Second Exam

- Backing of Alveolars
- ~~binary feature~~
- canonical form
- casual speech
- closed syllable
- Cluster Reduction
- Cluster Simplification
- connected speech
- Context-Sensitive Voicing
- cooing
- ~~correspondence analysis~~
- CV timing
- Deaffrication
- denasality
- derhotacized
- ~~distinctive feature~~
- distortion error
- duration
- Early Stopping
- ~~Epenthesis~~
- Final Consonant Deletion
- flap
- Flapping
- Fricative Simplification
- functor word
- Gliding
- Glottal Substitution
- grammatical elision
- hypernasality
- hyponasality
- ~~idiom~~
- ~~independent analysis~~
- jargon (prelinguistic)
- jargon (vocabulary)
- juncture
- labialized
- Later Stopping
- ~~Lateralization of sibilants~~
- lexical elision
- Liquid Deletion
- Nasal Assimilation
- nasal emission
- nasal snorting
- open syllable
- Palatal Fronting
- phonetic
- phonetic feature
- phonetic repertoire
- phonological
- phonological process
- phonological unit
- phonological word
- phonology of the first 50 words
- phonotactic
- primary stress
- progressive idioms
- rapid speech
- reduplicated babbling
- Reduplication
- reflexive sounds
- ~~relational analysis~~
- rhotacization
- secondary stress
- segmentation
- Sound Additions
- sound avoidance
- sound preference
- sound sequence
- Stopping of Liquids
- stress
- strong vowel
- syllabic consonant
- syllabification
- syllable level stress
- ~~target analysis~~
- ~~tone unit~~
- tongue clicks
- ~~tonic syllable~~
- variegated babbling
- vegetative sounds
- Velar Assimilation
- Velar Fronting
- vocal play
- ~~vocal register~~
- Vocalization
- Vowelization
- weak stress
- Weak syllable deletion
- weak vowel
- word shape
